re : Reseeding Project, CPMC Pond Access Road and Campsite

Kelly,

As discussed, enclosed is a check for \$1750.00 to cover the costs of reseeding the CPMC access road and campsite. During the past week we have completed ripping the soil to a depth of one foot. We have also crimped about two tons per acre of straw to provide mulch. The seed should be planted during the second half of November if sufficient moisture has been received at the site.

Prior to reseeding the area please contact me at High Desert Consulting (387-5503) or at my home (387-5536). You will be required to provide certification of the seed applied on completion of the job. Attached are copies of our correspondence to date and the seed mix required by the BLM and the Division of Oil, Gas, and Mining. If you have any questions please do not hesitate to call.

Thanks,

Larry Sower
